Targets on the USSR

REF : St/I Office Notice No. 116, 22 January 1958

1. A suggested target concerning the USSR construction program is attached.

2. In drafting this suggestion, consideration was given to other targets. None, except those related to the Soviet defense effort, measured up to the specifications for targets in referenced memoranda, since other sources are generally adequate for our research. Collaboration was provided by this Branch in the preparation by others of targets on the atomic energy program, guided missiles, and civil defense.
